We sincerely hope that you will take advantage of this time to add a new aquatic element to your workout schedule.

Swimming after a work day can help melt away job stress, ease tight muscles from sitting at a desk, burn extra energy so that you will sleep better.

Aquatic exercise can lower your stress hormones, increase your endorphins, and provide a sensory break for mindful focus after a long day.

PLEASE NOTE

These extended hours are temporary from now through December 29th, 2026.
Continued evening hours into 2027 are not guaranteed and will be reevaluated at that time.
