

## Coronavirus (COVID-19) Information Update:

**2 New Positive Cases of COVID-19**

**Tuesday, December 1, 2020**

We received notification that two additional team members tested positive for COVID-19.

A Residential Living non-direct care team member was tested on November 27 and results were received on November 30. This team member was last on-campus on November 20 and is currently off-campus.

A Meadows Health Care Center direct care team member was tested on November 19 and results were received on November 26. This team member was last on-campus on November 11 and is currently off-campus.

We believe that the exposure risk to residents and team members in both cases is low. Please be assured, that we are trained and well-equipped to safely care for these residents, while minimizing the risk of the spread of COVID-19 to other individuals.

We are proceeding per guidance by the PA Department of Human Services and PA Department of Health to conduct 'Outbreak Testing' and 'Routine Testing' on residents and team members. As COVID-19 testing progresses, these tests may result in additional COVID-19 positive cases.
