# Freedom & INDEPENDENCE

*Securing the future you want today*

At Tel Hai, you're not giving up your freedom, independence or autonomy. In fact, you're gaining it.

- It's **FREEDOM** from the burdens of homeownership, worries of future care and financial unknowns.
- It's **INDEPENDENCE** to find stimulating activities and joyful relationships that enhance your life.
- It's **AUTONOMY** to make your own decisions and be in the driver's seat of your future care.

**An INDEPENDENT Lifestyle**

Our worry-free, independent lifestyle allows residents to truly embrace the Redefining Retirement™ concept.

Life at Tel Hai is centered on a personal choice—the autonomy to do what you want, when you want, with whom you want and how you want. What's better than that?

Your future neighbors are a community of passionate people with shared interests and talents. Living “in community” provides you companionship of friends who care but respect your privacy and space.

It's about knowing you're unburdened from a potential future of loneliness, what-ifs and fear.

**The ASSURANCE of Support**

When you become a resident of Tel Hai, you have priority access to on-campus continuing care services. This includes a variety of services that you may one day need, including home care, personal care, memory support, skilled nursing care, and short-term rehab and outpatient therapy services.

Best yet, as a fee-for-service community, you only pay for continuing care services if and when you need them.

You have freedom in flexibility, knowing that everything you need is here. No need to move to another community for higher levels of care, or shoulder the worry of caring for your spouse alone.

**Financial FREEDOM**  
*A Value Comparison*

With your current home, you can be saddled with a variety of unknowns, from increases in property taxes to costly repairs. Not to mention annual insurance premiums rising, inflated utility costs, maintenance, lawn care and snow removal expenses.

At Tel Hai, you can predictably plan for just how affordable your future can be. Check the value comparison below to see the unsurpassed value of living at a Life Plan Community!

## Finding support & fellowship in community

“I have no regrets. None. ‘Life on the Hill’ is just that... it’s a new life,” shared Pat DeSpirito as she reflected on the impact of her decision to forge a future at Tel Hai, a Life Plan Community.

Moving to a Garnet Apartment in StoneCroft in June of 2021, Pat said, “The first few months were just a blur.”

Prior to her relocation to Honey Brook from Bridgeport, Montgomery County, Pat was enjoying retirement with Bill, her husband of 45 years. The DeSpiritos’ lives were full with children and grandchildren, hobbies and traveling to their summer home just outside Ocean City, New Jersey. They were comfortable

in their 1,472 sq. ft. Colonial home—Bill’s family homestead for decades prior—and they had no immediate plans to move.

Then, their fullness of life was interrupted with a terminal cancer diagnosis. “With the help from my daughter Maureen, we were exploring skilled nursing care for Bill and we found Tel Hai,” shared Pat. “I was going to live in residential living, but at least we’d be together on campus.” But Bill passed two months later, in May of 2021, after receiving end-of-life care at Fox Chase Cancer Center.

“Through the support of my friends, family, daughter Maureen and

Tel Hai, the apartment was available and the timing was right. A month later, I moved in and never looked back,” shared Pat.

Featuring ample room to host family and friends, without useless spaces that create more cleaning, Pat found freedom in a smaller apartment that fits her needs. “I just love where I live. It’s perfect. It’s on the ground floor, it’s bright, cheery and I have an open floor plan from the kitchen to the living room.”

Most importantly, Pat feels that living in-community has provided her the support of friendship and fellowship she would have never received if she had grieved alone in her prior

home. “There is tons of hustle and bustle here, but I also enjoy my privacy and downtime.”

Now her days are filled with joy-filled activities like volunteering in the mailroom, canasta, and mahjong with girlfriends, and of course... dinner with neighbors.

So what are you waiting for? Join Pat and discover inspired living, abundant activities, and the rewards of retirement at Tel Hai.

# Aqua Spin Hydroriders

Harnessing the power  
of water for wellness

**W**ithin Tel Hai's StoneCroft Aquatic Center, the newest wellness addition of Hydroriders has been making a splash—literally!

Residents, greater community members and team members alike have greatly enjoyed and benefited from Tel Hai's recent expansion: our wellness water offering called Aqua Spin.

What is Aqua Spin? It's an in-water spinning workout performed on a submerged stationary bike. It combines the benefits of a low-impact workout and strength training, all while increasing your cardiovascular endurance while putting minimal stress on your joints. When paired with your friends and lively music, it's the perfect combination for a fun-filled wellness class.

Receiving an intensive training course including teaching techniques

and anatomy/physiology basics, Tel Hai's Aquatics Coordinator Sandi Brandt earned her Aquacycling Fusion Certificate by Hydrorider prior to launching the class. "It's a wonderful addition to our aquatic programming, which includes and encourages people of all wellness levels. Modifications can be made to the workout to accommodate concerns such as joint pain and limited range of motion—regardless of age or agility. It's a great alternative to traditional, weight-bearing exercise," she shared.

In addition to the Hydrorider, Tel Hai acquired a Hydrorider Aqua Treadmill to complement our offering of aquatic wellness programming. The treadmill provides maximum lower body building without strain or pressure. Active leg movements offer greater strengthening and sculpting results from therapy sessions or workouts.

## Top 5 Benefits of Underwater Spinning

Underwater spinning workouts facilitate an energizing workout that targets the legs, arms, chest, and core muscles. The benefits are endless, but here are the top five enjoyed by residents and team members of Tel Hai:

- Improves Cardiovascular Endurance**  
 Underwater spinning is a great low-impact workout where you can exercise at a higher intensity but at a lower heart rate. This improves your cardiovascular health without risking exhaustion.
- Increases Blood Flow**  
 The hydrostatic pressure in water can significantly improve your blood circulation. In addition to strengthening your heart muscles, it can help lower your resting pulse rate and encourage consistent, lower blood pressure.
- Alternative Low-Impact Exercise**  
 If you are worried about sore hips, knees, ankles, or back, the water's buoyancy will support your body weight; it puts less pressure on your joints as you enjoy your workout.
- Fun Through Fellowship**  
 Water resistance makes aqua spinning more challenging and fun than just spinning on dry land. It's a form of dynamic group fitness where you can meet new people and build friendships through fitness.
- Improves Muscle Strength and Coordination**  
 Aquacycling is a great cardio workout alternative which strengthens muscles and improves coordination. It puts a demand on your muscles and forces you to utilize your muscles synchronously to pedal as fast as necessary.

**LEARN MORE:** Contact the Aquatics Coordinator today at (610) 273-9333, ext. 2441 or [aquatics@telhai.org](mailto:aquatics@telhai.org) to learn more about our Community Membership Program.
